**PRELIMINARY AMENDMENT**

Hon. Commissioner of Patents and Trademarks  
Washington, D.C. 20231

Dear Sir:

Preliminary to examination, please amend the application as follow:

**IN THE SPECIFICATION**

Please amend the Specification as follows:

1. Please amend paragraph beginning at Page 5, line 20 to the following:

--In the case of a system server integrated with a host system, WDIE<sup>TM</sup> together with WDIE feather may be defined as a 'middleware' solution for integrating enterprise handheld resources with 'legacy' stand-alone or network solutions. WDIE<sup>TM</sup> offers wireless connectivity to database and other information resources residing on a single server or a network. The present invention makes the task of entering, transferring and updating data in real time possible for long-distance wireless connections. WDIE feather is always a page delimited on and transmitted by a server.--.

2..Please amend the paragraph beginning at Page 9, line 2 to the following:

Applicant: Deborah Weissman-Berman  
Serial No. 10/012,223  
Page 2

--Referring to Figure 1, the system and method of the present invention are shown. The invention is a Wireless Data Input Engine ("WDIE") 100 that serves as a gateway for wireless users to access the Internet. WDIE 100 is an interface based wireless-access, allowing devices to deliver faster point-to-point business and professional services.--.

**REMARKS**

This Preliminary Amendment merely adds to the specification certain written description appearing on several of the drawing figures, as formal drawings currently being prepared will remove such language. Accordingly, no additional disclosure or new matter is being inserted. Applicant is merely transferring certain textual language originally appearing in the drawings to the specification.

Accordingly, Applicant respectfully requests that the Examiner enter the above amendments to the specification.

If there are any additional charges, including extension of time, please bill our Deposit Account No. 13-1130.

Respectfully submitted,

Daniel S. Polley, Reg. No. 34,902  
Malin, Haley & DiMaggio, P.A.

**VERSION WITH MARKINGS TO SHOW CHANGES MADE  
IN THE SPECIFICATION**

Please amend the Specification as follows:

1. Please amend paragraph beginning at Page 5, line 20 to the following:

--In the case of a system server integrated with a host system, WDIE<sup>TM</sup> together with WDIE feather may be defined as a 'middleware' solution for integrating enterprise handheld resources with 'legacy' stand-alone or network solutions. WDIE<sup>TM</sup> offers wireless connectivity to database and other information resources residing on a single server or a network. The present invention makes the task of entering, transferring and updating data in real time possible for long-distance wireless connections. WDIE feather is always a page delimited on and transmitted by a server.--.

2..Please amend the paragraph beginning at Page 9, line 2 to the following:

--Referring to Figure 1, the system and method of the present invention are shown. The invention is a Wireless Data Input Engine ("WDIE") 100 that serves as a gateway for wireless users to access the Internet. WDIE 100 is an interface based wireless-access, allowing devices to deliver faster point-to-point business and professional services.--.
